

Working Group 8 on Integrated Urban, Land and Housing Data Framework

(U4SSC Thematic Group on City Platforms and Data Spaces)

Update on the work of the U4SSC Thematic Groups and Working
Groups

Presented by:

Maike Salize, Leader of the Working Group 8 on Integrated Urban, Land and
Housing Data Framework

31 October 2025

Working Group 8 on Integrated Urban, Land and Housing Data Framework

Working Group Leader

Maike Salize (UNECE)

Working Group Scope

Integrated urban, housing and land data is essential for informed decision-making and transparent governance. This working group will focus on developing guidelines for setting up an integrated data framework that systematically brings together housing, land, and urban development data and makes it available across all levels of governance to monitor housing needs and affordability trends and strengthen policy transparency and accountability.

Expected deliverables

- Collection of Case Studies
- Mapping of relevant frameworks, platforms, systems and data sources
- Guidelines for integrated data framework with recommendations tailored to UNECE region

Tentative timeline

- November-December 2025 – Project scoping, call for experts
- January 2026 – Launch call of U4SSC Working Group
- February-May 2026 – Case Studies collection, analysis of existing systems
- June-July 2026 – Outline of Framework Guidelines
- September-December 2026 – Review by CUDHLM and work on Guideline
- January-May 2027 – Validation of draft guidelines and finalization
- June-July 2027 – Submission to CUDHLM for endorsement
